Spring I Summer 2022

# 5 POINTS OF COMFORT

### **ANTI-SHOCK**

The Flexus sole is designed to give effective protection from the impact of walking, helping to ease your back, knees, hips and spine.

Born from the idea to merge anatomically shaped footbeds with memory foam to achieve the ultimate comfort footwear, Flexus provides maximum support to alleviate any foot pressure while still utilizing very flexible outsoles and stretchy materials that allow free movement of the foot.

The longer a pair of Flexus are owned, the more it learns and adjusts to the way the woman walks, stands and lives. The Flexus sole is pre-formed to the natural foot anatomy, ensuring proper support, giving you maximum comfort.

### SELF-MOULDING

The sole, filled with millions of bubbles, will mould permanently to the natural shape of your foot, giving you a personal fit time after time for that added extra comfort.

### **SLIP-PROOF**

The sole is slip resistant, providing you with excellent traction.

The sole is super flexible, moving naturally with your feet with every step you take.
