5 POINTS OF COMFORT

1 ANTI-SHOCK

The Flexus sole is designed to give effective protection from the impact of walking, helping to ease your back, knees, hips and spine.

ANATOMIC 2

The Flexus sole is pre-formed to the natural foot anatomy, ensuring proper support, giving you maximum comfort.

3 SELF-MOULDING

The sole, filled with millions of bubbles, will mould permanently to the natural shape of your foot, giving you a personal fit time after time for that added extra comfort.

SLIP-PROOF 4

The sole is slip resistant, providing you with excellent traction.

5 FLEXIBLE

The sole is super flexible, moving naturally with your feet with every step you take.

FLEXUS® ITALIAN COMFORT by Spring Step

FOR YOUR MAXIMUM SUPPORT

For decades there was a global race towards achieving the ultimate comfort footwear. While European scientists believed in firm soles with anatomical shape, America's leading footwear firms believed that comfort is achieved through maximumsoftness and flexibility.

Flexus® was born with the idea to merge both of these concepts. We provide the ideal comfort by using anatomically shaped footbeds with memory foam which provides maximum support to alleviate foot pressure, while still using very flexible outsoles & stretchy materials that allow for free movement of the foot.
